

COPPER U-CUT CABLE LUG

CRIMPING TYPE INSULATED TINNED COPPER U-CUT CABLE TERMINAL END

PESSRL U-cut lugs with PVC insulation are designed to provide secure, insulated connections in a wide range of electrical applications. Commonly used in industrial machinery, power distribution systems, and automotive wiring, these lugs offer an effective solution for connecting cables to terminals, bus bars, or other fixed points.

- All the terminals are tin plated to avoid oxidation and to achieve maximum corrosion protection.
- The insulation sleeve, often made from PVC, protects against moisture, chemicals, and abrasion, ensuring long-lasting performance and reliability in diverse environments.
- Material: Copper (ETP) IS 1897
- Finish: Electro tin to BS 1872 (1984)
- Color coding of insulation sleeve
